MEMORANDUM FOR: MR. GORDON GRAY, DIRECTOR
PSYCHOLOGICAL STRATEGY BOARD

SUBJECT: List of Agencies Engaged in
Psychological Warfare Activities

1. You asked for my suggestions as to how to compile a complete list of agencies engaged in psychological warfare activities. Although I could probably do this job for you myself it is somewhat afield from the usual role of my office, which is the coordination of intelligence activities.

2. You might ask the State Department to compile such a list since, prior to the establishment of the PSB, it had the major responsibility for coordination of psychological warfare activities in support of foreign policy. Mr. Barrett might call on his own people or on Chuck Johnson for the work.

3. I suggest, however, that this survey should most properly be undertaken by the Bureau of the Budget and that they are in a better position to do a thorough job. In case you agree with this proposal I have attached for your consideration a memorandum to Mr. Finan.
